About me

Graduated with a Master's degree in Safety Industrial Engineering and a Bachelor's degree in Electromechanics. I have built a solid understanding of both technical and managerial aspects, with a strong focus on system reliability, safety, and maintainability.

This background has provided me with hands-on experience in handling warranty cases, analyzing technical data, and supporting IT and engineering teams to resolve issues and enhance overall system performance.

Combining technical expertise with a customer-oriented mindset, I strive to deliver accurate, efficient, and high-quality work that supports business goals and strengthens customer satisfaction.
